INTRODUCTION TO OIL & GAS: UPSTREAM OVERVIEW

21 – 22 June 2022 | 2 Half-Days

9:00 AM – 1:00 PM (GMT +8)

Zoom Pro / Microsoft Teams

From RM 550/pax

Program Overview

The petroleum industry includes the global processes of exploration, extraction, refining, transporting (often by oil tankers and pipelines), and marketing petroleum products. The upstream sector, or more commonly known as Exploration & Production (E&P) is more focus in searching for potential underground or underwater crude oil and natural gas fields, drilling exploratory wells, and subsequently drilling and operating the wells that recover and bring the crude oil and/or raw natural gas to the surface.

In the current challenging landscape of oil & gas industry, it is so vital that everyone who involve directly or indirectly with the industry to understand and appreciate the life-cycle of an oilfield. In this Digital Classroom, the delegates will have an understanding of each upstream phases from exploration to decommissioning within 2 days of 4-hour session each day.

Key Modules

- Introduction to Oil & Gas
- Exploration Activity
- Drilling Operation
- Oil & Gas Field Development
- Producing the Hydrocarbon and Production Facilities
- Decommissioning the Facilities

Who should attend?

- Employees new to the industry
- Contractors
- Government policy-makers
- Professionals and advisors
- Members of the community seeking a basic understanding of the industry
- Businesses intending to enter the industry
