

FUNDAMENTAL OF PROJECT MANAGEMENT Planning & Scheduling

13 June 2023 | 1 Day | Kuala Lumpur

Program Overview

Fewer than a third of all projects were successfully completed on time and on budget over the past year according to Standish Group. An astounding 97% of organizations believe project management is critical to business performance and organizational success reported by PricewaterhouseCoopers.

An excellent project management is important for many companies to ensure the project can be delivered effectively, safely and economically. Without strong foundation of understanding towards project management, this will open up to higher exposure towards unfavorable risks in the projects which can cause major losses, incidents and inefficiency.

This course is aimed for industry professionals to empower the understanding of fundamental of project management, focusing on planning & scheduling.
